BRAND MAINTENANCE / BRAND CARE

In today's global marketplace, brand integrity is crucial. JMS universal has the experience, the products, the people & the technology to take care of your brand and protect your brand anywhere in the world.

HIGH STANDARDS OF MANUFACTURING

We design and manufacture superior quality products using the most advanced technology & equipment in the industry. Continued R & D ensures the Integration of new techniques and materials, enabling us to provide value for money products

FAÇADE SIGN

These type of signs mostly made out of Aluminium or Stainless Steel. Our expert advise team can support to conclude the size, fixation and illumination of the façade sign.

PYLON

Pylon is widely used in outdoor sign as an information media. Using this, client can display prices, display offers, way finding and much more. These type of standalone sign structure needs sufficient concrete footing.

UNIPOLE

A huge advertisement display channel anchored on a single pole at a specified height is an Unipole. JMS engineering team can design the sufficient load bearing structure and execute at the right location and orientation.

WAY FINDING

Otherwise called as directional signs that gets installed indoor and outdoor to guide the visitors of the client facilities. There are several latest aesthetically best looking designs available that suits clients overall design concept.

ROOF TOP

The name sign of the business that gets placed above the roof with necessary support steel structure is called roof top signage. JMS can provide such designs with wind load and structural load calculation. With our distance view calculator, we can advise the client to decide the size of the sign for a better long distance view.

HOARDINGS

Hoardings are large outdoor displays with a printed flex banner that gets fastened with necessary steel structure. This can be of standalone or a façade of the building. A Hoarding act as an OOH.

FLAGS

Flags are used by the business houses to attract the visiting clients. Most of the flags with its pole carry client logo / venue name on it. The beauty of flags that waves in the air attracts each and every passer-by. JMS can supply variety of flag materials for long term or short term use.

DIGITAL DISPLAY

Now communicate with your target audience through advanced technology LED digital video screens. JMS provides a complete solution from consultation to execution on both your Indoor and outdoor needs. With our screens, you can manage your content from any part of the world. All our screens come with an automatic brightness sensor. We not only execute, we also maintain your screen to give you peace of mind.

FURNITURE

Interior furniture elements plays a vital role in showroom aesthetics. To save the time, JMS provides modular type of showroom furnitures ranging from seating to product display shelves. With this the business can be commenced in shorter period of lead time.
